

# Rivercove at Riverwinds

Rising in West Deptford is the exciting Rivercove Age Restricted Apartment Complex at Riverwinds. CES was chosen to provide full site design and permitting for this ambitious project.

*Rivercove Apartments* is an exciting 4 story apartment complex currently under construction.

Experience with multi-family and mixed use projects like Main Street in Voorhees, and numerous projects in West Deptford made CES the obvious choice to engineer this facility.

Rivercove consists of 200 – one and two bedroom apartments for an age restricted clientele. It includes surface parking surrounding the building as well as a limited number of underground parking spaces.

Engineering and planning required in-depth study of local sewer and water line capacity, stormwater facilities, traffic requirements, wetlands delineation and full environmental permitting and client representation. CES is also providing construction stakeout services.
