

Environmental/Ecological Services

New Jersey is one of the most regulated states in the Country. Environmental regulations are constantly changing and becoming increasingly stringent. CES can assist businesses to maintain compliance with the variety of environmental requirements which have become common to conducting business in New Jersey.

Wetlands

- Delineations
- Applications for NJDEP Letters of Interpretation and USACOE Jurisdictional Determinations

Threatened and Endangered Species

- Perform surveys for swamp pink.
- Provide turn-key coordination services for other specialized T&E surveys.
- Advocate with regulators on behalf of applicants regarding T&E issues.

Environmental/Ecological Permitting

- Freshwater and Coastal Wetlands Permitting
- Waterfront Development Permits
- CAFRA
- Tidelands
- Flood Hazard Area (formerly stream encroachment)
- Provide turn-key services for ancillary permitting requirements such as Cultural Resource Surveys

Phase I Environmental Site Assessments and NJDEP Preliminary Assessments

- Performed according to most current ASTM and/or NJDEP protocol
- Provide turn-key coordination services for historic pesticide evaluations and limited Phase 2 Assessments
